DETAILED ACTION

1. This is in response to Applicant communication on 3/10/2006.

Election/ Restriction

Claims 1-9, 31-51 are pending in this application.

Applicant amendment to claim 1 and adding new claims 31-51 required new ground for restriction requirement.

Claims 1-9, 31-51 directed to semiconductor device assembly are restricted as follows:

2. The claims are directed to the following patently distinct species of the claimed invention:

A/ **Species A. Claims 1-9** and as best as can be understood is described in claim 1 is directed to an integrated package with all the technical features as recited in claim 1.

B/ **Species B. Claims 31-33** as best as can be understood is described in claim 31 is directed to an integrated package with all the technical features as recited in claim 31.

C/ **Species C. Claims 34-39** as best as can be understood is described in claim 34 is directed to an integrated package with all the technical features as recited in claim 34.

D/ **Species D. Claims 40-45** as best as can be understood is described in claim 40 is directed to an integrated package with all the technical features as recited in claim 40.

E/ **Species E. Claims 46-51** as best as can be understood is described in claim 46 is directed to an integrated package with all the technical features as recited in claim 46.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

2. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).
